

ABR-100U

Scalpel Blade Remover

A *Simply Safer* way of removing blades.

Remove and dispose of used blades with the single-handed ABR-100U technique.
No fingers, forceps or re-sheathing.
No Injuries.

Uniflex technology without complicated moving parts

ABR-100U deploys the innovative patent pending Uniflex technology that simply lifts and traps the heel of a blade, then safely disengages and removes the blade.

There are no moving parts and no jamming of gears or mechanism.

Make compliance a simple reality.

ABR-100U meets these important safety standards:

- Australian/New Zealand Standard "AS/NZS 3825:1998"

This safety solution makes compliance a simple reality that dramatically reduces injury costs.

Universal. Remove blades from all sizes and shapes of BP scalpels

ABR-100U, the world's first single-handed universal blade remover, removes all sizes and shapes of blades from all sizes and shapes of BP scalpel handles.

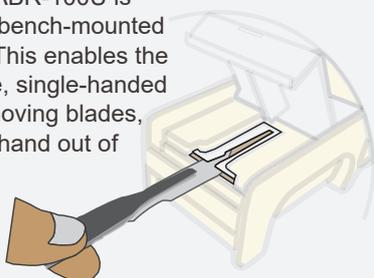

ABR-100U single-handed scalpel blade remover can be used anywhere scalpel removal is required, including:

- Hospital
- General practice
- Dental clinics
- Podiatry
- Mortuaries
- Pathology lab
- Veterinary
- Design Studios
- Education

Simply push and pull Remove blades with one hand

When in use, ABR-100U is either wall- or bench-mounted on a bracket. This enables the extremely safe, single-handed method of removing blades, with the other hand out of harm's way.

No fingers
No forceps
No resheathing
No Injuries

Remove up to 200 blades ** Optimise cost with safety

Remove and dispose of up to 200** blades, you will

- save up to 4 times if compared to the use of other blade removers
- save up to \$400 for not using those flimsy, disposable plastics scalpels

\$afe

** based on the size of Blade #10

Specifications

Colour	Yellow
Product code	ABR-100U
Blade capacity	Average 100 blades, up to 200 for smaller blades (e.g. blade #10). 'FULL' lines on both side of ABR-100 will indicate when maximum capacity is reached.
Compatible Blades & Handles*	All B.P. handles and blades**.
Incompatible Blades & Handles	Non B.P. handles and blades
Size (per unit)	Length 130mm , Width 60mm , Height 45mm
Weight (per unit)	Approximately 100g
Accessories	Mounting Bracket - the bracket holds the ABR-100U in place to allow single-handed removal of scalpel blades.

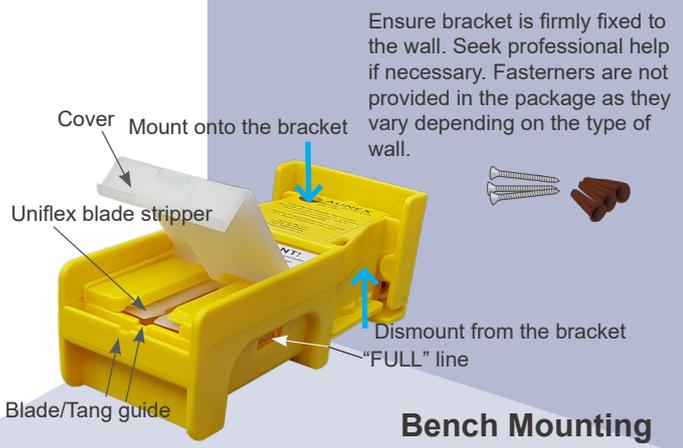

Material	ABS (acrylonitrile butadiene styrene)
Latex	No
DEHP	No

**Some brands may not work with Aunex ABR-100U

Instructions for Use

MOUNTING TO WALL, BENCH OR TROLLEY:

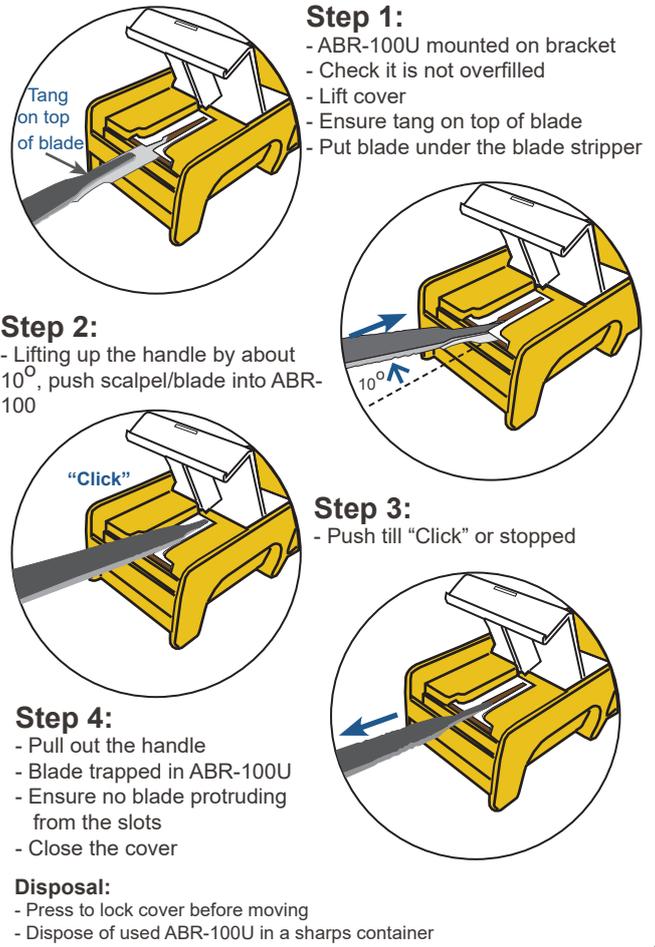

Wall Mounting

Bench Mounting

REMOVE BLADE SINGLE HANDED ACTION:

Step 1:

- ABR-100U mounted on bracket
- Check it is not overfilled
- Lift cover
- Ensure tang on top of blade
- Put blade under the blade stripper

Step 2:

- Lifting up the handle by about 10°, push scalpel/blade into ABR-100

Step 3:

- Push till "Click" or stopped

Step 4:

- Pull out the handle
- Blade trapped in ABR-100U
- Ensure no blade protruding from the slots
- Close the cover

Disposal:

- Press to lock cover before moving
- Dispose of used ABR-100U in a sharps container
